Re: High Production Volume (HPV) Challenge Program

Great Lakes Chemical Corporation (GLCC) takes this opportunity to add the following chemical to its HPV commitment.

Chemical Name

Tricresyl Phosphate (Phosphoric Acid tris (methyl phenyl) ester)
Isopropylated Triphenyl Phosphate

CAS Number

1330-78-5
68937-41-7

Due to GLCC's acquisition of FMC's Polymer Additives Product Line the afore mentioned chemicals, which were original sponsored by FMC through the Aryl Phosphate Panel (Tracking # 201-04252) are now being sponsored by GLCC. The timing for submission of Test Plan and Robust Summaries (start year) will be 2001

If you or your staff have any question or comments regarding this voluntary commitment please contact us at any time.

Sincerely,

Robert Campbell
Director, Corporate Regulatory Affairs
